I came away from this workshop with a boost of confidence that I am on the right track with my personal transformation journey and a strong reminder for why it's all worth it. I am coming to see how this journey sometimes requires us to go against everything that previously held our world together, to risk it all for the sake of a shaky and not yet clear purpose that is struggling to emerge. With the Agile Transformational Leader Workshop, Michael and Michele provided valuable content that helped me to make sense of the complex challenges that I have been facing as a leader in my organization. But perhaps even more valuable was the supportive container that it provided, which allowed me to get encouragement and guidance from other like minded leaders who understand what this journey is all about. Clearly, evolving leadership in our culture is not something that can be done alone, and there is a huge need for workshops like this. Kudos to Michael and Michele for providing a fantastic venue for this. Highly recommended.
